EDUCATION

JAMIA MILLIA ISLAMIA

B.Tech - Electronics and Communication Engineering - CGPA : 8.22

(2022 – 2026)

New Delhi-110025

PROJECTS

Job Insider – Job Portal | React.js, Node.js, Express.js, MongoDB, Clerk Authentication (2025)

- Developed Full-stack job portal using **React.js, Node.js, Express.js, MongoDB** to allow users to browse, apply for, and Manage job listings efficiently.
- Secured user authentication with **Clerk**, handling registration, login, and role-based access control.
- Integrated **Sentry** for error monitoring, debugging, and improving application reliability and performance.
- Designed a **responsive, mobile-first UI** using **React.js, HTML5, CSS3, Tailwind**, providing an intuitive platform for job seekers and employers.
- Built **RESTful APIs** to manage CRUD operations for jobs, applications, and user profiles.
- Managed version control with **Git** and followed **Agile development practices** for collaborative development.

NomadStay Hotel Booking | HTML, CSS, JavaScript, Node.js, Express.js and MongoDB (2024)

- **Built a full-stack web application** using **HTML5, CSS3, Node.js, and Express.js** to provide digital nomads with accessible and affordable accommodation options.
- **Designed and implemented an advanced search functionality** that allowed users to filter listings by **location, amenities, and accessibility**, significantly enhancing overall user experience.
- Applied **Bootstrap framework** to build a **responsive, mobile-first UI**, ensuring consistent and seamless access to accommodation listings across desktop and mobile platforms.
- **Developed a dynamic review and rating system** using **RESTful APIs**, enabling users to submit and view feedback, and fostering a **community-driven platform**.
- **Integrated secure user authentication with Passport.js**, managing user **sign-in and login** workflows while maintaining robust data protection and efficiency.

EXPERIENCES

Frontend Developer Intern | Zidio (June 2025 – July 2025)

- **Collaborated with a development team** on a shared **GitHub repository**, following version control best practices and contributing to a team-based development workflow.
- **Designed and developed the frontend landing page** for a responsive **E-Commerce website**, focusing on usability, clean layout, and modern UI design using **HTML5, CSS3, JavaScript** and **Bootstrap**

HackJMI Hackathon (2024)

- **Led a team at the GDSC HackJMI Hackathon** to build **NomadStay**, a stay-booking platform for digital nomads.
- **Implemented features** like location search, filters, and user reviews.

The Robotics Society-JMI (Sept 2023 - present)

- **Organized robotics workshops, seminars, and technical events** as part of the **Tech Team**
- **Coordinated logistics, content, and technical setups**, enhancing student engagement and hands-on robotics.

TECHNICAL SKILLS

Coursework: Data Structures And Algorithms, Full-Stack Development, Networking, DBMS, OOP Concepts

Languages/Frameworks: Java, C, JavaScript, HTML5, CSS3, React.js, Node.js, Express.js, Bootstrap, Tailwind, Clerk Authentication (User Auth), JWT(JSON Web Token)

Databases: MySQL, MongoDB

Developer Tools: VS Code, Git, GitHub, Eclipse, Sentry

CERTIFICATIONS

- **Solved 250+** algorithm problems on **LeetCode**
- **Data Structures And Algorithms** - Apna College
- **Full-Stack Web Development** - Apna College
